## Real world patterns of health inequality and discrimination

Unequal access and resource allocation

Discriminatory healthcare processes

Biased clinical decision making

## Application injustices

Disregarding and deepening digital divides

Exacerbating global health inequality and rich-poor treatment gaps

Hazardous and discriminatory repurposing of biased AI systems

## Discriminatory data

Sampling biases and lack of representative datasets

Patterns of bias and discrimination baked into data distributions

## Biased AI design and deployment practices

Power imbalances in agenda setting and problem formulation

Biased and exclusionary design, model building and testing practices

Biased deployment, explanation and system monitoring practices
