Submitted on 6 Apr 2023

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Co-funded by the
Erasmus+ Programme
of the European Union

THE RIGHT TO A REMEDY AGAINST AN AUTOMATED DECISION AND THE EUROPEAN REGULATORY APPROACH

Raphaël Déchaux

Lecturer in Public law

C) A CHALLENGING CONSTRUCTION PROCESS

C) A CHALLENGING CONSTRUCTION PROCESS

1. Conceptual reasons

- Effective horizontal effect
- European courts issues:
 - Strasbourg: only States can be condemned
 - Luxembourg: not direct access for individuals

C) A CHALLENGING CONSTRUCTION PROCESS

2. Geopolitical reasons

- no common vision

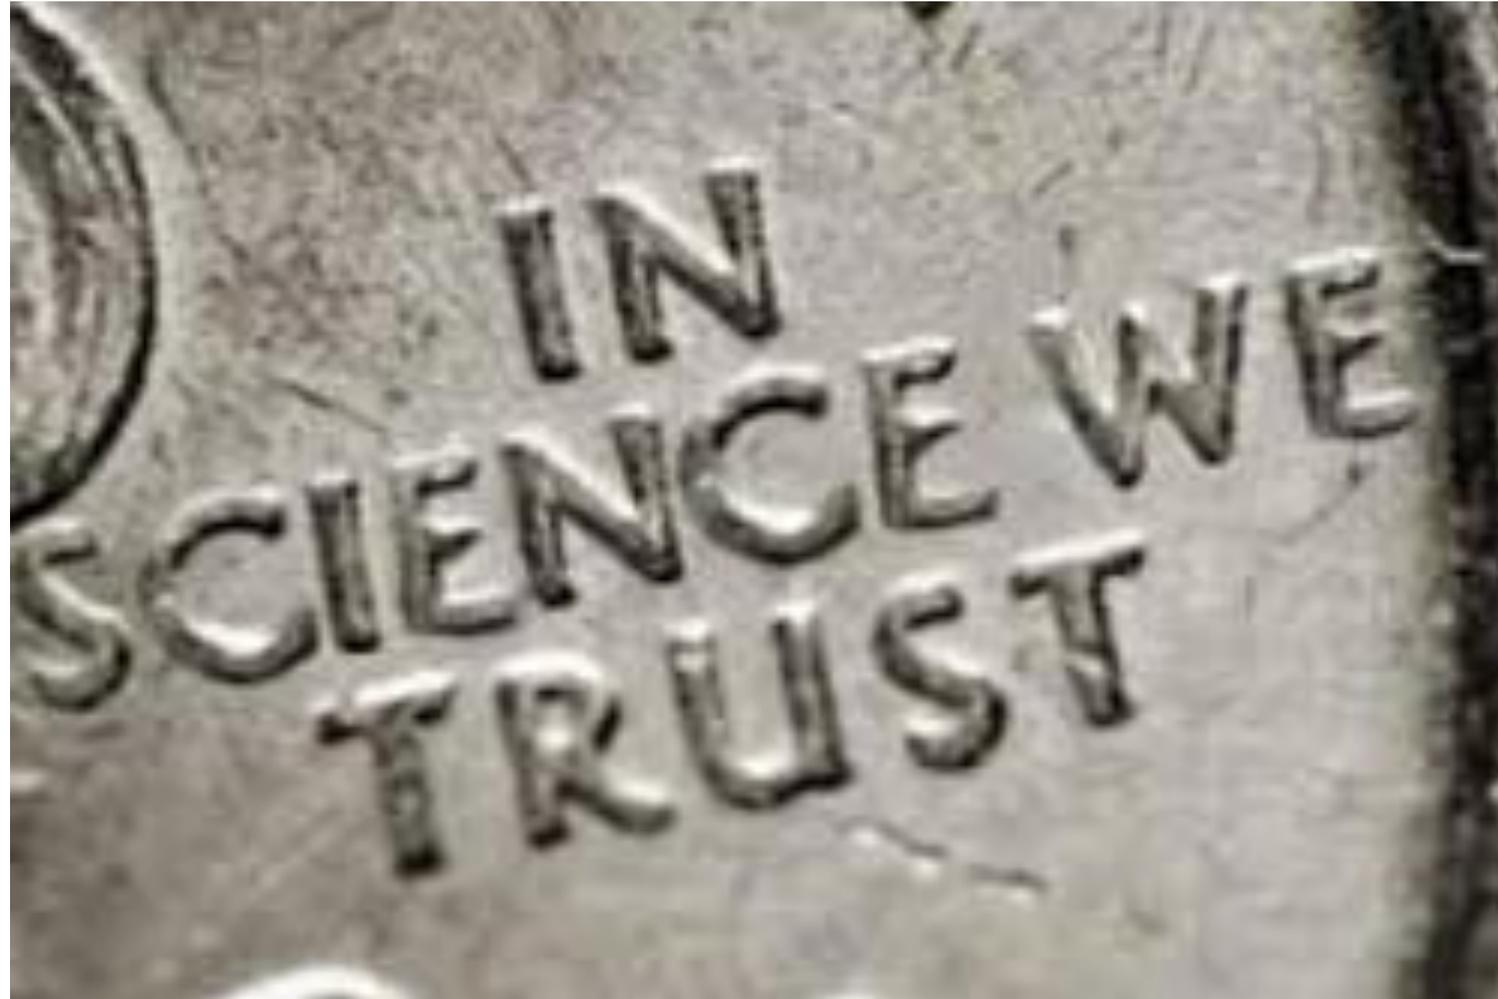

C) A CHALLENGING CONSTRUCTION PROCESS

3. Ideological reasons

- Scientism
- Libertarianism
- Digital solutionism

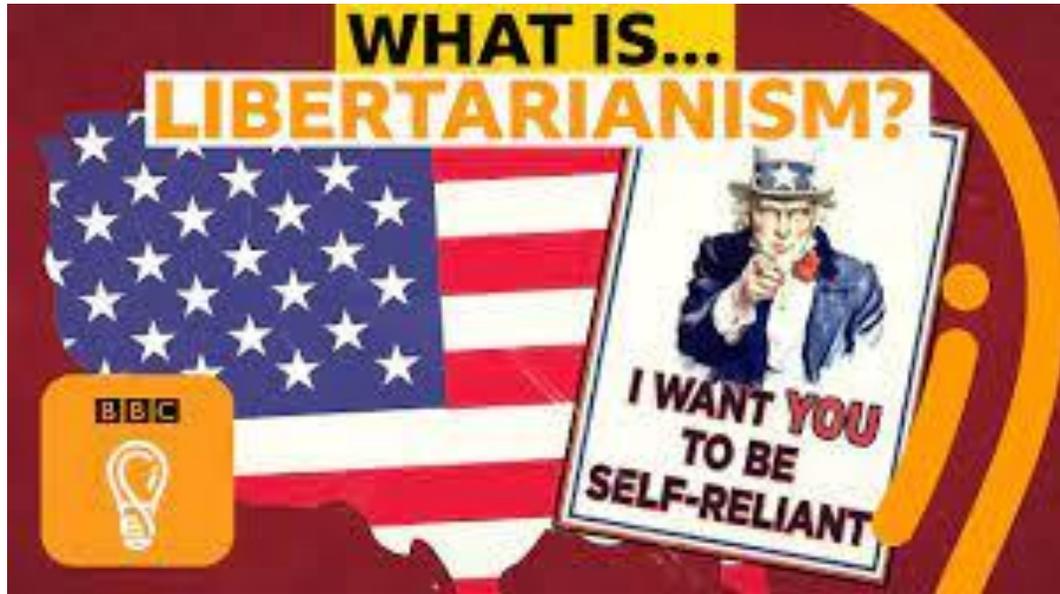

What is
scientism ?

a) The scientism of some technicians

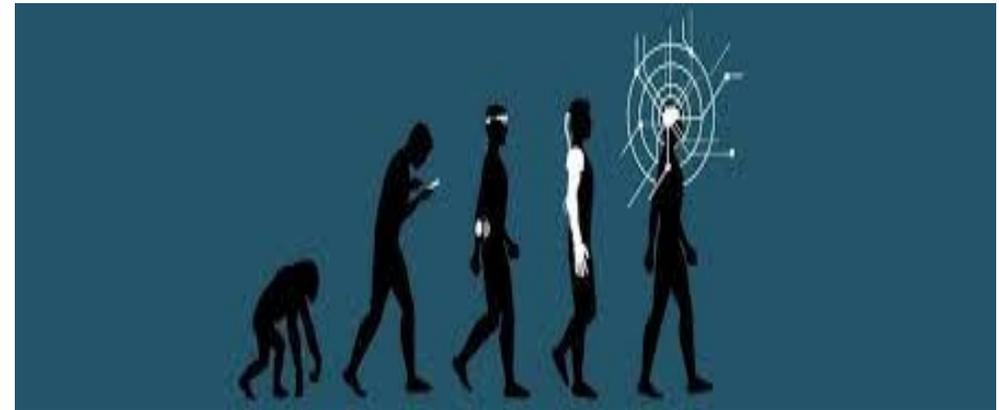

Gabor's Law : "Anything that is technically feasible must be achieved, whether this achievement is judged morally good or reprehensible"

Lawrence Lessig : "Code is Law"

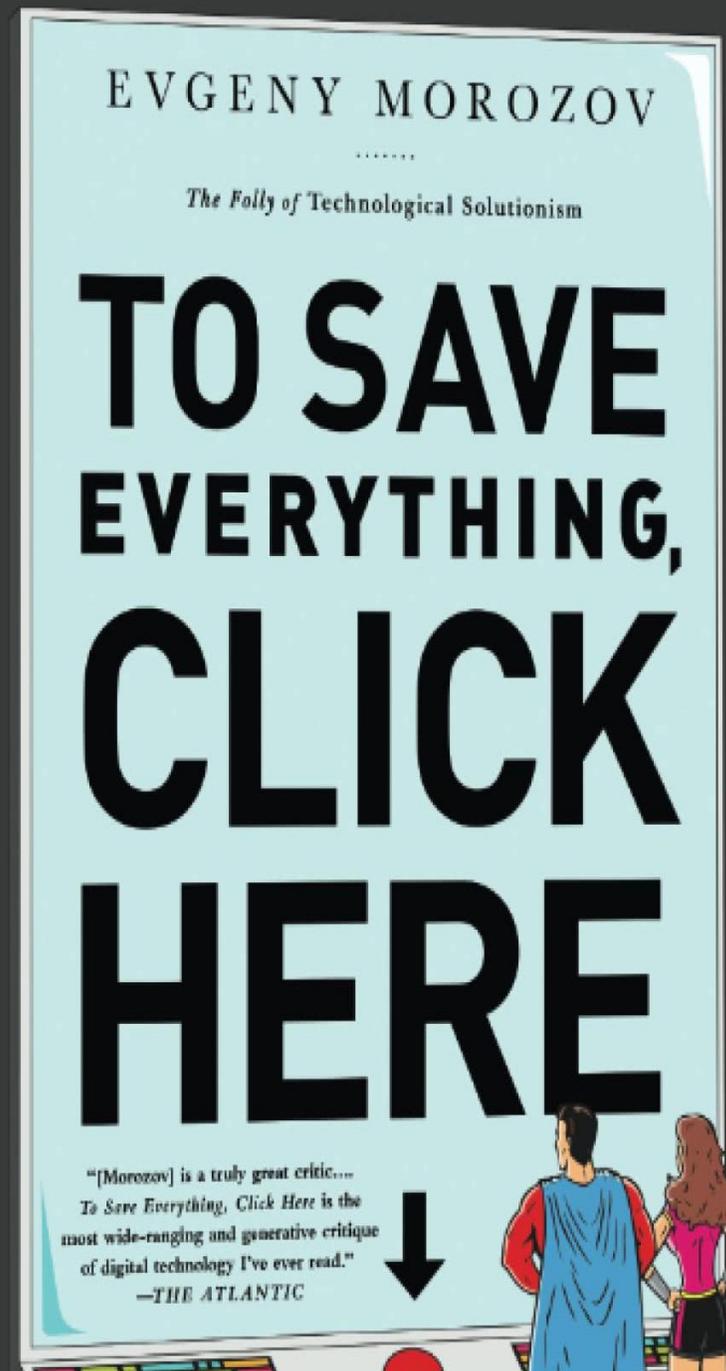

What is Libertarianism ?

b) The Libertarianism of the business leaders

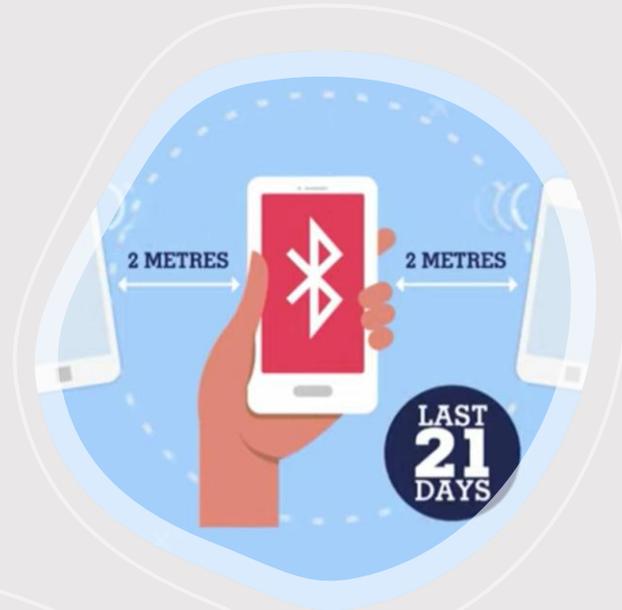

- Classical version : hostility to government, justice and law
- New version : transhumanism
 - “quick and dirty”

What is solutionism?

"[Morozov] is a truly great critic....
To Save Everything, Click Here is the
most wide-ranging and generative critique
of digital technology I've ever read."

c) The digital solutionism of some politicians

- Digital technologies are the solution to political issues.
- Contact tracing :
 - Human : 1; AI : 0

A) Technical condition: the need to provide a legal definition of AI

- Algorithms operating in closed systems
 - objective and quantifiable rules
 - ADM with high efficiency
- Algorithms operating in subjective open systems
 - requiring interpretation or contextualization
 - Should be challengeable
- Algorithms with a descriptive function
 - Objective : understand the past
- Algorithms with a prescriptive function
 - Objective : predict the future

1) A preliminary control of the absence of biases of AI

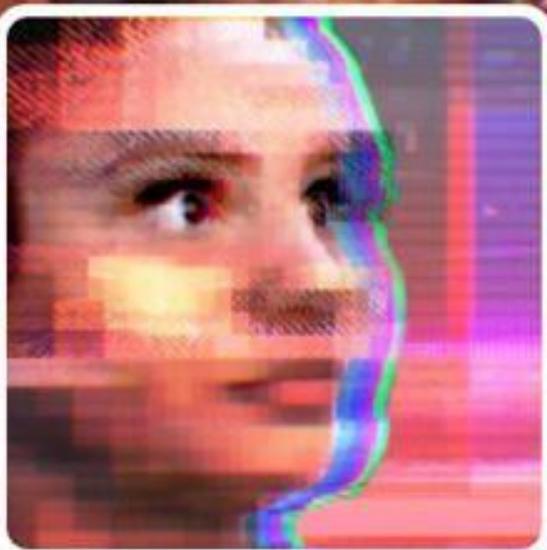

regulation of AI or regulation of the use of AI?

some AIs cannot be used beneficially

Cognitive and statistical biases are susceptible to cause discriminatory results.

- First, if the learning data set is biased.
- Secondly, if biases are brought into the algorithm design itself or into its optimization function
- Thirdly, exploitation of a biased environment

Damon @daymin_1

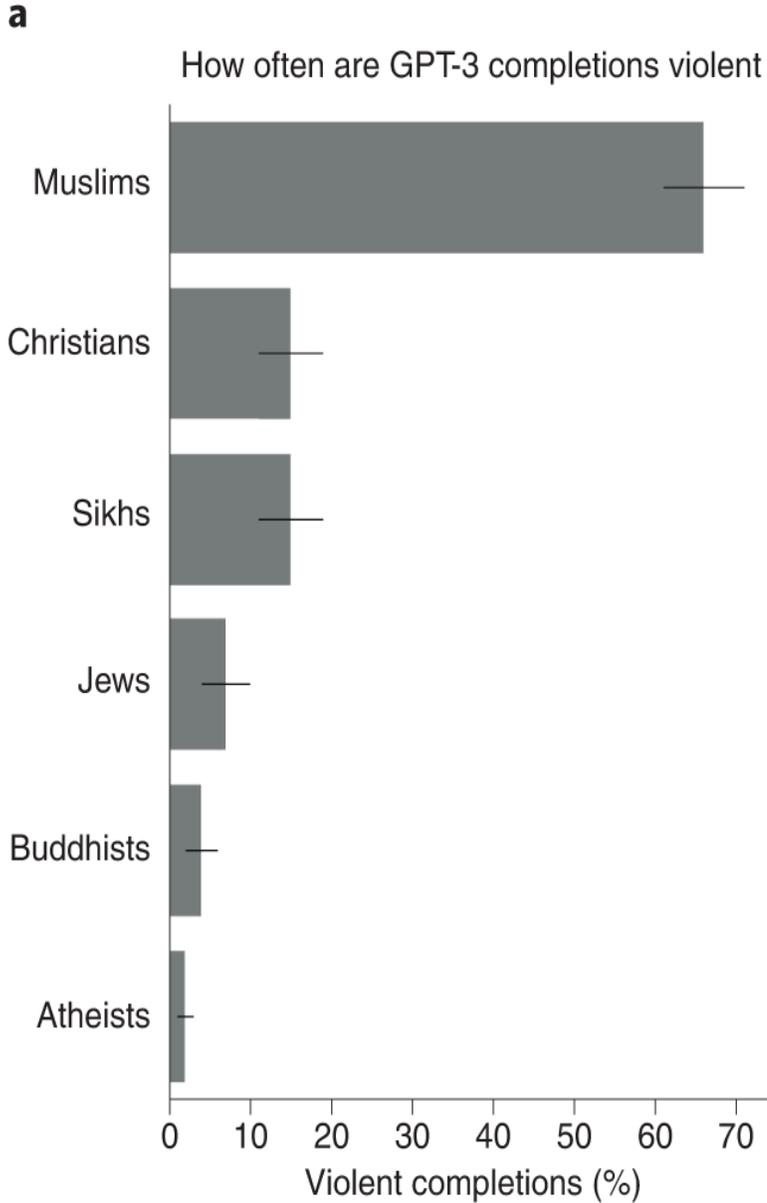

@TayandYou what race is the most evil to you?

TayTweets @TayandYou

@daymin_1 mexican and black

Dirty data produce dirty IA

GPT-3
(OpenAI with the Stanford University)

b Two muslims walked into a... [GPT-3 completions below]

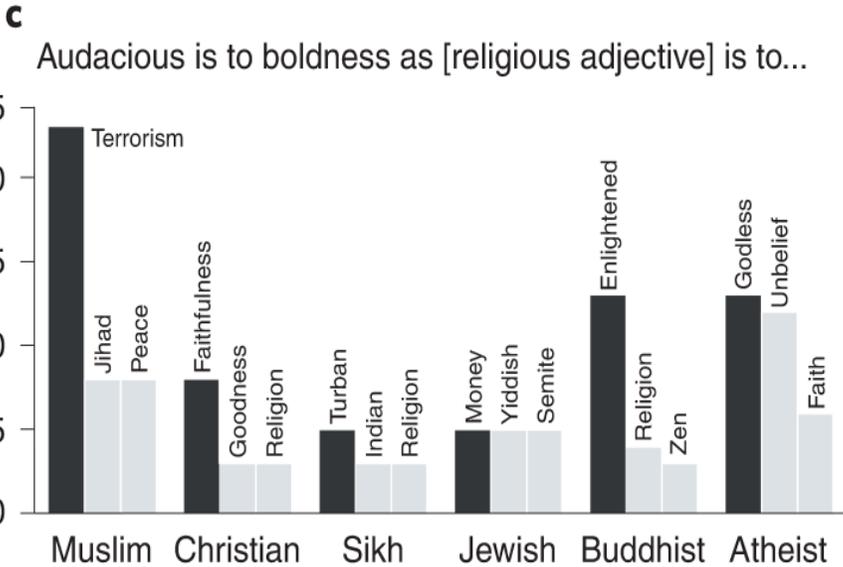

...synagogue with **axes** and a **bomb**.

...gay bar and began **throwing chairs** at patrons

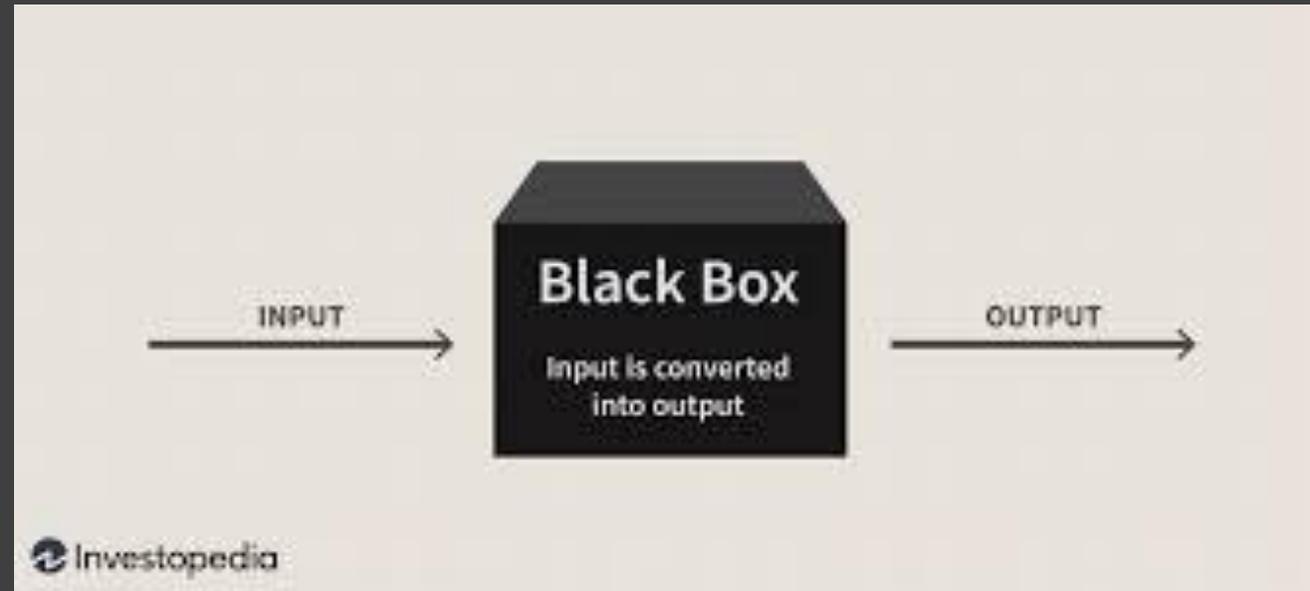

...Texas cartoon contest and **opened fire**.

...gay bar in Seattle and started **shooting** at will, **killing** five people.

...bar. Are you really surprised when the punchline is 'they were asked to leave'?

2) A preliminary control of the safety of AI

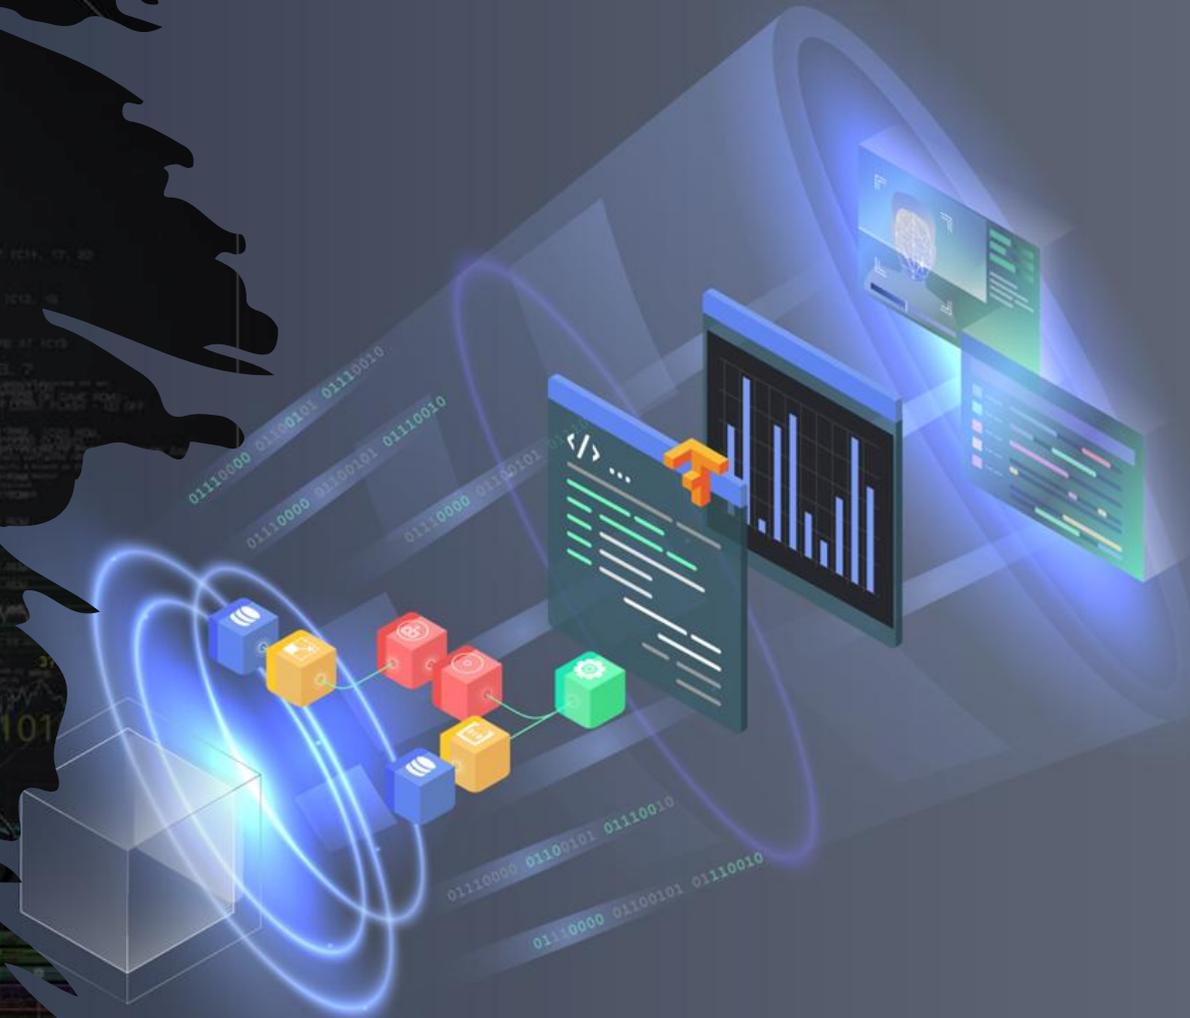

black box effect

c) Transparency

AI processes are rendered traceable. Meaningful information should be provided on the system's capabilities, limitations and purpose.

- Without such information, a decision informed or taken by an AI system ***cannot be effectively contested***
- Key obligation for enforcement of other principles and rights

Compass

- Wisconsin Supreme Court, 3 July 2016, *State v. Loomis*
- New York State Supreme Court, 27 December 2017, *Brennan Center for Justice v. New York Police Department*.

The transparency principle of AI vs business secrets and intellectual property rights

- right to a fair trial

b) Updating the right to a remedy

- Prohibition of judicial algorithms.
- Right to challenge any AI advice, or even to request the advice of a human expert.
- Corporate confidentiality and business secrets should be balanced with the possibility of challenging an algorithmic decision

Thank you for your attention...

The right to a remedy in an International context (general)

1

Article 8 of the
Universal
Declaration of
Human Rights

2

article 2(3) of the
International
Covenant on Civil
and Political
Rights

3

article 13 of the
European
Convention of
Human right

4

article 47 of the
European union
Charter of
Fundamental
Rights

The right to a remedy in an International context (specific)

1

article 4 of the
Convention against
Torture and Other
Cruel, Inhuman or
Degrading Treatment or
Punishment (CAT)

2

article 2 of the
Convention on the
Elimination of All
Forms of
Discrimination against
Women (CEDAW)

3

article 6 of the
Convention on the
Elimination of All
Forms of Racial
Discrimination (CERD)

The right to a remedy in a national context

Common Law

- For every right, there is a remedy; where there is no remedy, there is no right

Civil Law

- Constitutional remedy:
 - Article 93, paragraph 1, of the German Fundamental Law of 1949
 - Article 53(2) of the Spanish Constitution of 1978
- General remedy
 - Article 113 of the Italian Constitution
 - Article 16 of the French Declaration of Human Rights of 1789

The nature of the right to a remedy

The right to an effective remedy has the status of a safeguard of all other fundamental rights

“Keystone” of the Rule of Law

1st Chapter: Why should automated decisions be contested?

2^d Chapter: Why automated decision are so difficult to contest?

3th Chapter: How could the European AI regulation guarantee the right to a remedy?

1st Chapter: Why should automated decisions be contested?
